

BUILDING
ON DREAMS!

HOUSE in ORDER

HIO is a one-of-a-kind
home building specialist.
We exist to build your homes.
We rely on science-based
construction practices and best
standards of information sharing
to ensure all our clients have a
blissful home construction
experience.

THE EXPERIENCE

We are engineers who are passionate about home construction. With our unique construction methodologies and reporting mechanisms, we strive to make the home construction experience completely unique for our clients, in line with our key core value of **transparency**.

COST FREEZING

We save you from your worst nightmare. At the very start of the project, we clearly and in detail communicate the costs of building your dream home. The **cost remains frozen** until the key is handed over.

MONITOR, ALWAYS!

Monitor your dream home construction from anywhere in the world. Your home will always be under **CCTV surveillance** right from the start of the construction to its completion.

ALL INCLUSIVE GUARANTEE

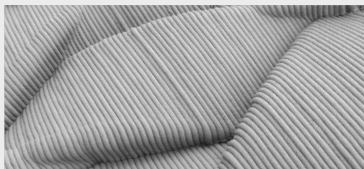

We stand by our product. We believe in the science that we use. We believe in our systems and processes. Hence all homes done by HIO are completely under the HIO **guarantee on paper.**

WE RESPECT TIME

Time has value, for us and for all our clients! We contractually establish the completion date of the project at the proposal stage. We are so certain about **on-time completion** that we give our clients the right to penalise us for each day of delay.

WEEKLY FACTS & FIGURES

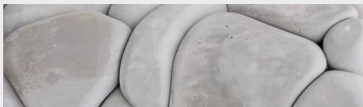

We are engineers. We love numbers and we love facts! We believe that all our clients should be aware of the progress routinely based on facts in black and white. Hence, we share standard **progress reports** on a weekly basis.

OUR PHILOSOPHY

We exist to make guaranteed homes! It is our attempt to give our clients the best construction experience of their homes. We believe that our adherence to engineering standards and principles, our earnest desire to imbibe transparency in the whole process, and our willingness to improve our processes based on feedback from our clients, all help in ensuring that our clients are **extremely happy** with their dream home construction experience with HIO!
